

CHURCHILL

our environment

the steps to a more sustainable future

our once fired technology
uses up to **40%** less energy per piece

90% of our ceramic products
are manufactured in the **UK**

100% of our unused clay
from the manufacturing process is recycled

we give **extensive consideration**
to the impact on the environment **throughout** our
production processes and ensure that the **best**
environmental option **is always adopted**

40% reduction in energy consumption
due to investment in fast fire kilns
